Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

This listing of claims replaces all prior versions, and listings, of claims in the application.

1. (Currently amended) A method of enabling an auction buyer to submit a bid, the method including the steps of:

~~providing the auction buyer with a form containing information relating to a bid transaction, the form including coded data indicative of an identity of the form and of at least one reference point of the form;~~

receiving, in a computer system, indicating data from a sensing device regarding the identity of a printed form and a position of the sensing device relative to the printed form, the printed form being provided to the auction buyer, the form containing information relating to a bid transaction, the form including coded data indicative of an identity of the form and of at least one reference point of the form, the sensing device, when placed in an operative position relative to the form, sensing the indicating data using at least some of the coded data; and

identifying, in the computer system and from the indicating data, at least one parameter relating to the bid transaction.

2. (Original) The method of claim 1 in which said at least one parameter relating to the bid transaction is associated with at least one zone of the form and in which the method includes identifying, in the computer system and from the zone relative to which the sensing device is located, said at least one parameter.

3. (Original) The method of claim 2 which includes:

receiving, in the computer system, data regarding movement of the sensing device relative to the form, the sensing device sensing its movement relative to the form using at least some of the coded data; and

identifying, in the computer system and from said movement being at least partially

Response to Office action of March 9, 2004

3

within said at least one zone, said at least one parameter of the bid transaction.

4. - 7. (Cancelled)

8. (Currently amended) The method of ~~any one of claims 2, 4 or 6~~ in which the parameter is an action parameter of the bid transaction, the method including effecting, in the computer system, an operation in respect of the action parameter.

9. (Original) The method of claim 8 in which the action parameter of the bid transaction is selected from the group comprising:

 requesting the subcategories contained in an auction category, requesting the auction listings contained in an auction subcategory, searching auction listings, requesting the details of an auction item listing, sending e-mail to the seller of an item, requesting a bid history related to an item, requesting a list of leading bidders related to an item, and placing a bid.

10. (Currently amended) The method of ~~any one of claims 3, 4 or 7~~ in which the parameter is an option parameter of the bid transaction, the method including identifying, in the computer system, that the auction buyer has entered a hand-drawn mark by means of the sensing device and effecting, in the computer system, an operation associated with the option parameter.

11. (Original) The method of claim 10 in which the option parameter is associated with at least one of:

requesting the subcategories contained in an auction category, requesting the auction listings contained in an auction subcategory, searching auction listings, requesting the details of an auction item listing, sending e-mail to the seller of an item, requesting a bid history related to an item, requesting a list of leading bidders related to an item, placing a bid, a search results limit, and a search category specification.

4

12. (Currently amended) The method of ~~any one of claims 3, 4 or 7~~ in which the parameter is a text parameter of the bid transaction, the method including identifying, in the computer system, that the auction buyer has entered handwritten text data by means of the sensing device and effecting, in the computer system, an operation associated with the text parameter.

13. (Original) The method of claim 12 which includes converting, in the computer system, the handwritten text data to computer text.

14. (Original) The method of claim 13 in which the text parameter is associated with at least one of:

a name of the auction buyer, auction item search text, and a bid amount.

15. (Currently amended) The method of ~~any one of claims 3, 4 or 7~~ in which the parameter is an authorization parameter of the bid transaction, the method including identifying, in the computer system, that the auction buyer has entered a handwritten signature by means of the sensing device and effecting, in the computer system, an operation associated with the authorization parameter.

16. (Original) The method of claim 15 which includes verifying, in the computer system, that the signature is that of the auction buyer.

17. (Original) The method of claim 16 in which the authorization parameter is associated with authorization of at least one of:

placing a bid, and payment for a successful bid.

18. (Currently amended) The method of ~~any one of claims 3, 4 or 7~~ in which the parameter is a picture parameter of the bid transaction, the method including identifying, in the computer system, that the auction buyer has entered a hand-drawn picture by means of the sensing device and effecting, in the computer system, an operation associated with the

5

picture parameter.

19. (Original) The method of claim 18 in which the picture parameter is associated with a picture of a listed item.

20. (Currently amended) The method of ~~any one of claims 1, 4 or 5~~ in which the form contains information relating to at least one of:

terms of an item auction, a description of an item being listed for auction, categories in which an item can be listed, subcategories in which an item can be listed, a number of items in a subcategory, a title of an item listing, and an identification number of a listed item.

21. (Currently amended) The method of ~~any one of claims 1, 4 or 5~~ which includes printing the form on demand.

22. (Original) The method of claim 21 which includes printing the form on a surface of a surface-defining means and, at the same time that the form is printed, printing the coded data on the surface.

23. (Original) The method of claim 22 which includes printing the coded data to be substantially invisible in the visible spectrum.

24. (Currently amended) The method of claim 1 ~~or 5~~ which includes retaining a retrievable record of each form generated, the form being retrievable using its identity as contained in its coded data.

25. (Currently amended) The method of ~~any one of claims 1, 4 or 5~~ which includes distributing a plurality of the forms using a mixture of multicast and pointcast communications protocols.

6

26. (Currently amended) The method of claim 1 ~~or 4~~ in which the sensing device contains an identification means which imparts a unique identity to the sensing device and identifies it as being associated with a particular auction buyer and in which the method includes monitoring, in the computer system, said identity.

27. (Currently amended) The method of ~~any one of claims 1, 4 or 5~~ which includes providing all required information relating to the bid transaction in the form to eliminate the need for a separate display device.

28. (Currently amended) The method of ~~any one of claims 1, 4 or 5~~ in which the form is printed on multiple pages and in which the method includes binding the pages.

B1
29. (Currently amended) An apparatus ~~system~~ for enabling an auction buyer to submit a bid, the ~~system~~ apparatus including

a printed form containing information relating to a bid transaction, the form including coded data indicative of an identity of the form and of at least one reference point of the form; and

a computer system for receiving indicating data from a sensing device for identifying at least one parameter relating to the bid transaction, the indicating data being indicative of the identity of the form and a position of the sensing device relative to the form, the sensing device sensing the indicating data using at least some of the coded data.

30. (Currently amended) The ~~system~~ apparatus of claim 29 in which said at least one parameter relating to the bid transaction is associated with at least one zone of the printed form.

31. (Currently amended) The system of claim 29 which includes the sensing device, the sensing device sensing its movement relative to the printed form using at least some of the coded data.

7

32. - 35. (Cancelled)

36. (Currently amended) The systemapparatus of ~~any one of claims 29, 32 or 34~~ in which said at least one parameter of the bid transaction is selected from the group comprising an action parameter of the bid transaction, an option parameter of the bid transaction, a text parameter of the bid transaction, an authorization parameter of the bid transaction, and a picture parameter of the bid transaction.

37. (Currently amended) The systemapparatus of claim 36 in which the action parameter of the bid transaction is selected from the group comprising:

B) requesting the subcategories contained in an auction category, requesting the auction listings contained in an auction subcategory, searching auction listings, requesting the details of an auction item listing, sending e-mail to the seller of an item, requesting a bid history related to an item, requesting a list of leading bidders related to an item, and placing a bid.

38. (Currently amended) The systemapparatus of claim 36 in which the option parameter is associated with at least one of:

requesting the subcategories contained in an auction category, requesting the auction listings contained in an auction subcategory, searching auction listings, requesting the details of an auction item listing, sending e-mail to the seller of an item, requesting a bid history related to an item, requesting a list of leading bidders related to an item, placing a bid, a search results limit, and a search category specification.

39. (Original) The system of claim 36 in which the text parameter is associated with at least one of:

a name of the auction buyer, auction item search text, and a bid amount.

40. (Original) The system of claim 36 in which the authorization parameter is associated with authorization of at least one of:

Appln No. 09/608,022
Amdt. Dated April 5, 2004
Response to Office action of March 9, 2004

8

placing a bid, and payment for a successful bid.

41. (Original) The system of claim 36 in which the picture parameter is associated with a picture of a listed item.

42. (Currently amended) The system apparatus of ~~any one of claims 31, 32 or 35~~ in which the sensing device includes a marking nib.

31
43. (Currently amended) The system apparatus of claim 31 ~~or 32~~ in which the sensing device contains an identification means which imparts a unique identity to the sensing device and identifies it as being associated with a particular auction buyer.

44. (Currently amended) The system apparatus of ~~any one of claims 29, 32 or 33~~ in which the form is printed on a surface of a surface-defining means and in which the system includes a printer for printing the form on demand.

45. (Currently amended) The system apparatus of claim 44 in which the printer prints the coded data at the same time as printing the form on the surface-defining means.

46. (Currently amended) The system apparatus of ~~any one of claims 29, 32 or 33~~ in which the coded data is substantially invisible in the visible spectrum.

47. (Cancelled)

48. (Currently amended) The system apparatus of claim 44 in which, to cater for a form printed on multiple pages, the printer includes a binding means for binding the pages.
